PROFESSIONAL SUMMARY

Innovative and detail-oriented Web Developer and IT Personnel with proven experience in web design, system support, and digital communications. Skilled in both frontend and backend development, with a strong background in graphics design, publication layout, and website management. Currently serving at Research Enterprise Systems (RES), where I contribute to digital infrastructure, campaign structuring, and technical support for webinars, trainings, and large-scale programs. Passionate about creating seamless, user-friendly web experiences and leveraging technology to advance organizational goals.

PROFESSIONAL EXPERIENCE

- **RESEARCH ENTERPRISE SYSTEMS (RES)**

  IT/Research Personnel

  2025 - Present

  - Redesigned and optimized the official RES website for better functionality and modern user experience.
  - Designed and formatted organizational publications, newsletters, and visual reports.
  - Structured and deployed professional email campaign templates for institutional communications.
  - Provided IT and technical support for webinars, capacity-building trainings, and hybrid programs, including the Early Career Researchers and National Assembly Legislative Aides series, supporting over 3,000 participants.
  - Managed internal data systems, website updates, and ensured digital platforms remained secure and efficient.
  - Collaborated with the communications team to ensure brand consistency across all digital materials.

CERTIFICATION

- **SOCIAL & BEHAVIORAL RESEARCH – BASIC COURSE**
  CITI PROGRAM, AMERICAN UNIVERSITY

  - Completion Date: April 2, 2025
  - Expiration Date: April 2, 2029
  - Record ID: 54780657

PROJECTS

PARAMOUNT AUTOS LOGISTICS

- Role: Full-Stack Developer
- Live Demo: paramount-autos.vercel.app

OVERVIEW:

A Nigerian-based vehicle booking platform that enables users to book one or multiple vehicles — with optional security escorts — without creating an account. The platform features a secure admin dashboard for managing vehicles, bookings, and confirmations.

KEY CONTRIBUTIONS:

- Developed the full application using Next.js 15, TailwindCSS, and Drizzle ORM.
- Built a dynamic booking system with real-time pricing and bank transfer payment workflow.
- Designed and implemented an admin dashboard with authentication, booking management, and automated email notifications.
- Optimized for mobile responsiveness, SEO, and smooth user experience.

TECH STACK:

- Next.js, React 19, TailwindCSS, Drizzle ORM, Prisma, PostgreSQL, Clerk, NextAuth, Vercel

JMB THE OGA HR

- Role: Full-Stack Developer (End-to-End Project Execution)
- Live Demo: jmb-theogahr-website.vercel.app

OVERVIEW:

Led the full development and deployment of JMB The Oga HR, a modern HR consulting website that positions the brand as a trusted partner for startups and businesses. The platform was built to showcase HR outsourcing, recruitment, and advisory services while enabling lead generation and job applications.

KEY CONTRIBUTIONS:

- Designed and developed a fully responsive, SEO-optimized website using Next.js 15 and TailwindCSS.
- Built a careers hub with job listings, CV uploads, and automated email notifications.
- Integrated consultation booking and contact forms with dynamic content management via Sanity CMS.
- Deployed and optimized the website on Vercel, implementing Framer Motion animations for a smooth user experience.

TECH STACK:

- Next.js, React 19, TypeScript, TailwindCSS, Sanity CMS, Resend, Framer Motion, Vercel
